Subject: RE: Supplemental Production

Sensitivity: Normal

Bill:

Please provide more information immediately about what you are and are not producing here. First, are you representing that this production contains all responsive documents to our requests with respect to Anaplan and nVent? We still don't see in here any Anaplan application (for the 2021 role she actually got), any communications about her recruitment or interviews for that role, or any documents relating to her resignation from nVent. All of those are responsive to our discovery requests and are especially important now based on the Response you filed yesterday.

We have similar questions about the RIF documents. Are you representing that this production contains all responsive documents to our requests relating to the RIF? Just as one example, the Notice says that Ms. Deering received a communication from her management about the RIF, but we do not see that.

Please let us know immediately.
